- Problem Solving Skills

SUMMARY

Full Stack Web Developer with experience in building modern applications using ReactJS, PHP, Laravel, MySQL, and TailwindCSS.

I have developed various projects, including the online testing platform TestAI, authentication systems, e-commerce applications, and static websites.

I am known for generating unique and valuable ideas, as well as for my careful and efficient approach to development.

I am seeking opportunities to contribute as a committed developer in creating functional, reliable, and professionally designed solutions.
